

# ESSENCE OF ACUPUNCTURE, LLC

## ACUPUNCTURE CONSENT FORM

“Acupuncture” means the stimulation of a certain point or points on or near the surface of the body by the insertion of special needles. The purpose of acupuncture is to prevent or modify the perception of pain and is thus a form of pain control. In addition, through the normalization of physiological functions, it may also serve in the treatment of certain disease or dysfunctions of the body. Acupuncture includes the techniques of electro-acupuncture (the therapeutic use of weak electric currents at acupuncture points), mechanical stimulation (stimulation of an acupuncture point or points on or near the surface of the body by means of apparatus or instrument, and moxibustion (the therapeutic use of thermal stimulus at acupuncture points by burning Artemisia alone or Artemisia formulations).

The potential risks: slight pain or discomfort at the site of needle insertion, infection, bruises, weakness, fainting, nausea, and aggravation of problematic systems existing prior to acupuncture treatment.

The potential benefits: acupuncture may allow for the painless relief of one’s symptoms without the need for medications or other invasive therapies, and improve the balance of bodily energies leading to the prevention of illness, or the elimination of the presenting problem.

With this knowledge, I voluntarily consent to the above procedures.
